Application Site Report

Proposed Activities

Waste Incineration  
Directive Compliance

Proposed Management  
Techniques

Raw and Auxiliary  
Materials

Characterisation and  
Quantification of Waste

Waste Recovery and  
Disposal

Energy Consumption,  
Generation & Efficiency

Environmental Risks and  
Hazards

Noise

Monitoring

Decommissioning

Nature, Quantity & Sources  
of Emissions

Potential Significant  
Environmental Effects

Waste Management  
Licensing

Best Available Techniques
